Bed	Seating area	Variants
E Single beds	D Dinette	K Children's room
F French bed	L L seating area	TR Transport
Q Transverse bed	S Salon seating group	
	U U-shaped seating group	

Explanation of vehicle designations

As it is equipped with a transverse bed (Q), dinette (D) and children's room (K), the vehicle is called SÜDWIND 500 QDK, for example.

Please note that the number of beds indicated may include beds for both adults and children. The beds do not have the same dimensions. We therefore recommend that you consult your KNAUS dealer about the dimensions of the beds provided in the vehicle so that you can decide whether they are suitable for the occupancy (adults/children) you intend to have.

All information partly includes special features, which are available at additional cost.

PERFECTLY BUILT FROM SCRATCH

DURABLE PRO.TEC FRAME

The Pro.Tec frame is a particularly solid aluminium profile strip that connects the side wall, front wall, rear wall and roof to one another. It improves the stability of the bodywork and therefore also the longevity of the entire vehicle. One particular highlight is that the Pro.Tec frame incorporates a chamber for the sealant. This means that it can no longer bulge out, ensuring a seamless appearance (dependent on model).

HIGH-STRENGTH GRP ROOF

For maximum hail protection, we install a high-strength GRP roof with a fibreglass content that is almost three times greater than that of standard GRP (across all series).

STRIKING, SHAPELY & 100 % KNAUS.

The unique rear and side windows perfectly match the unique exterior design line.

JOCKEY WHEEL WITH LOAD INDICATOR

Loading errors can be easily avoided with the new jockey wheel that includes a vertical load indicator. The current vertical load is displayed directly and you can react accordingly (Optional).

AKS LANE STABILISER

For a safe journey, the series AKS lane stabiliser eliminates swerving motions and thereby also the dangerous sway of the vehicle (Across all series).

SAFE AL-KO-CHASSIS

Every chassis of our caravans is hot-dip galvanized and therefore especially protected against corrosion. Due to semi-trailing arm axles and oil-pressure shock absorbers, you will enjoy a comfortable ride (Dependent on model).

MORE INFO ONLINE
knaus.com/caravan-structure

Revolutionary FoldXpand rear construction

The automotive FoldXpand rear construction with flush-mounted taillight carrier provides greater interior space for the same vehicle length (dependent on model).

CATEYE evolution tail lights

Increased driving safety and distinctive KNAUS night-time signature thanks to the 3D design of the lights, dynamic LED indicators and integrated failure sensors (dependent on model).

Velocate GPS-Tracker

In the event of theft, the GPS tracker can help you to recover your vehicle. Capable of working independently for up to 3 months, it leaves nothing to be desired. The tracker can also be upgraded with Bluetooth sensors (optional).

SMART CI control panel

The smart CI control panel with touch screen is the easiest way to centrally control all functions of the vehicle. It can be controlled intuitively using the screen (dependent on model / optional).

INNOVATION AT ALL LEVELS

Start enjoying your holidays even more quickly in greater safety and comfort with our completely gas-free E.POWER models. Swap all the unnecessary winter equipment included in conventional caravans for more storage space, a higher payload, state-of-the-art electrical appliances, increased safety and less maintenance!

ARE YOU AN E-CARAVANNER?

If you can answer “yes” to the following questions, then our E.POWER technology is a fantastic alternative for you.

- ✓ Do you prefer travelling during the summer season, from Easter to October?
- ✓ Are you looking for simple, intuitive controls?
- ✓ Do you want air conditioning in a caravan?
- ✓ Are you definitely not the sort of person to go camping in winter?

Gas-free operation.
No more lugging gas bottles. No more checking fill levels. Our E.POWER vehicles are fully electric and therefore not only safer, but also lighter.

Great ideas are always found whenever expertise and passion come together. Our aim is to make your holiday that little bit more special with the help of cutting-edge technology and smart innovations. With vehicles that are already being built today for the freedom you desire tomorrow.

MODERN INTERIOR DESIGN

Revolutionary technology is the basis for a completely new design concept. Thanks to FibreFrame and ultrasound technology, the furniture can be placed in any location without requiring any screws. The result? Innovative layouts, clever solutions and a modern, open interior for truly unparalleled comfort.

SELF-SUPPORTING FRAME

A true innovation! The self-supporting FibreFrame revolutionises the interior design and the versatility of our layouts. The entire body is supported by plastic components that are glued together to form a durable FibreFrame, enabling the furniture and storage compartments to be positioned anywhere. Any slight scratches or damage to the surface of the frame can also be easily removed (without any abrasion of the material). Sunlight causes the material to expand, before returning to its original shape.

INNOVATIVE DYONIC CHASSIS

Unrivalled dynamics + Innovative bionics = Dyonic. The dyonic chassis has been developed to create the perfect base for our caravans. The result is a chassis that is particularly light, durable and tough.

Fully equipped kitchen. Compressor refrigerator and induction hob are available if you don't want to barbecue outside.

Comfortable climate. An energy-efficient air-conditioning unit with heat pump technology provides cool or warm air at the touch of a button as standard.

Smart energy control ensures that the electrical appliances are automatically controlled, prioritised and switched off or on as required and according to the available power. Completely intuitive and without any in-line fuses! All you have to do is set the fuse protection in amperes, which is specified at the campsite.

SELF-SUFFICIENT ON THE ROAD WITH E.POWER & EINHELL

Enjoy maximum freedom with the optional ONE NIGHT STAND system, consisting of the battery docking station “Caravan Charger” and high-performance exchangeable battery “Power X-Change” from Einhell. The 6Ah Power X-Change battery pack with particularly efficient Li-Ion cells supplies the electrical appliances (12V) independently of the shore power connection.

- ⊕ 2 in 1: The high-performance “Caravan Charger” is both a power supply and a battery charger
- ⊕ Active Battery Management System for maximum safety, performance, endurance & long service life *
- ⊕ 1 night self-sufficient: The system runs the light, water pump & compressor fridge. **

* Please note that the possible usage time of a battery per charging cycle depends on various factors, such as the number and power consumption of the operated end users, the age of the battery, etc., and is limited by these. Therefore, a minimum usage time per charging cycle cannot be guaranteed.
** For even more independence & longer service life, you will find suitable options in the current price list and on configurator.knaus.com

- ⊕ 4 Layouts
- ⊕ Self-repairing FibreFrame

AZUR

NEW

460 EU

500 EU

500 FU

540 UE

TAKING COMFORT TO A WHOLE NEW LEVEL

A true dream home. The angled design of the furniture inside the AZUR is stunning with a focus on creating a cosy atmosphere. It makes an impression both inside and out with a unique, dynamic signature lighting concept.

Huge U-shaped seating area

500 FU. The LED ambient lighting featuring a dynamic signature lighting concept shows the interior in all its glory.

Comfortable French bed

500 FU. Atmospheric ambient lighting runs around the base of the bed, and additional storage space can be found underneath.

Spacious galley kitchen

500 FU. The generous fully-extending drawers not only keep everything neat and tidy, they also make it incredibly easy to put items away.

Spacious longitudinal bathroom

500 FU. Thanks to the washbasin, large shelves and wide mirror with atmospheric ambient lighting, the longitudinal bathroom in the AZUR boasts a modern design and plenty of storage space.
