WHAT CONNECTS US & BRINGS US TOGETHER TO ACHIEVE OUR GOAL

With boundless passion, we at KNAUS have been creating unforgettable holiday experiences since 1960. We not only want to meet your demands, but exceed them. That's why we are constantly developing innovative technologies to make your holidays the best ever. Each of our vehicles incorporates the precision of our passionate employees and the knowledge and experience we have gained from over 60 years of caravanning.

STATE-OF-THE-ART PRODUCTION

Our development centre in Jandelsbrunn, Bavaria, is where our team designs new vehicles, tests innovative technologies and is continually creating revolutionary new products, which we definitely see as a source of inspiration for the caravanning industry. Serial production begins as soon as the prototype meets our high standards. For this purpose, we operate two further ultra-modern production sites in Mottgers, Hesse, and Nagyváros, Hungary. Advanced production lines enable us to take a flexible approach to new production processes.

WE HAVE RECEIVED OVER 50 AWARDS

KNAUS stands for quality. And that's not just the way we see it – numerous awards confirm that we are doing the right thing, each and every day. Our awards motivate us to deliver top performance time and time again. Of course, we are happy to share this with you, our customers. A complete chronicle of our awards can be found at

WITH PASSION AT WORK

For us, people are the focus of our attention. That is why we invest continuously in our staff and sites. Our production lines have been adapted to the individual needs of our employees. Trust, respect and a strong team spirit are the hallmarks of our team. As a leading employer in the caravanning industry, we are always happy to welcome new "holidaymakers" and provide training in various professions.

INNOVATION AT ALL LEVELS

At KNAUS, the wheels are always turning. We want to inspire you over and over again – whether that's with revolutionary technology, comprehensive new developments or progress where lightweight construction is concerned, as well as flexible or sustainable solutions. All of our findings enable us to continually improve our products and fully exploit their potential. This is how we are realising our vision of revolutionising the leisure vehicle industry. All of our innovations are driven by our desire to offer you the best ever holiday experience.

SERVICE YOU CAN RELY ON US

You can rely on our products & service partners. Every KNAUS vehicle comes with everything you need as standard to get to your destination safely. That is why we grant a 10-year leak-proof guarantee* on all of our products and only ever use high-quality components, guaranteed to give you many years of happiness. The garages and tailored services of our expert dealers are at your disposal. What's more, all participating MAN TRUCK&BUS service centres will undertake any servicing, repair, maintenance or care work on the body of your motorhome or camper van – regardless of the chassis that your vehicle is built on.

dealer.knaus.com

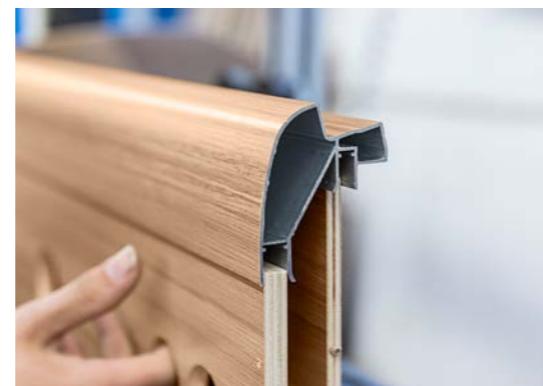

FANTASTIC MATERIALS

We build furniture that makes your vehicle feel special.

The demands placed on the furniture in our motorhomes and camper vans are incredibly high. That's why we use premium materials as well as robust designs and technologies that will inspire you for a lifetime.

Sturdy & precision fit. The intricate dowel technology means that we achieve a high precision fit, as well as cabinetry that is considerably more sturdy. We also use solid aluminium profiles, which not only make the furniture more sturdy, but noticeably lighter too (dependent on model).

PREMIUM QUALITY MATERIALS

are the basis for maximising longevity. That's why we install solid cast-iron pan supports, scratch-resistant stainless steel sinks, highly durable HPL surfaces, and lots more besides.

Elaborate integrated furniture. Air circulation is one of the main prerequisites for a pleasant, healthy room environment (dependent on model).

Ceiling cabinets. They have a particularly sturdy design and are mounted with clearance from the walls. As a result, air can freely circulate behind the cabinets. Condensation is therefore prevented in the cabinets, and your clothing and goods always remain fresh and dry.

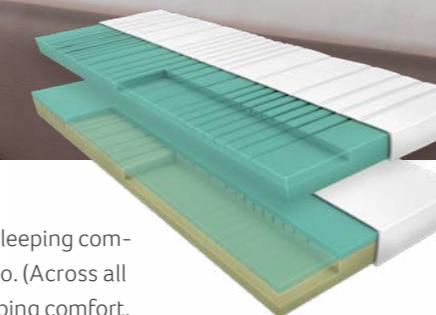

Kitchen block All furniture is ventilated such that the heating can perform its optimal function. Open rear ventilation cut-outs ensure perfect circulation of heated air and provide cosy warmth in the vehicle.

Soft-close mechanisms. The overhead cabinets with soft-close mechanisms close gently and lock automatically. The generous fully-extending drawers with soft-close mechanisms make it easy to tidy everything away. Of course, they also close almost silently (across all series).

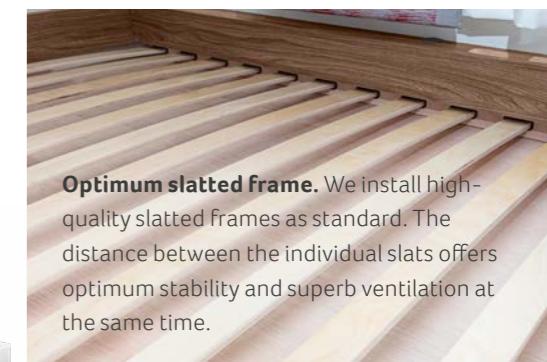

The 5-zone EvoPore mattresses

not only pamper you with excellent sleeping comfort, but are exceptionally durable too. (Across all series). For even more exclusive sleeping comfort, the optional WaterGel layer is up to 50 mm thicker

Relaxing & comfy. We give the highest priority to the design of the sleeping area to ensure you wake up feeling refreshed every day of your busy holiday.

Fitted sheets. Our precisely fitting, optionally available sheets optimise the lying comfort.

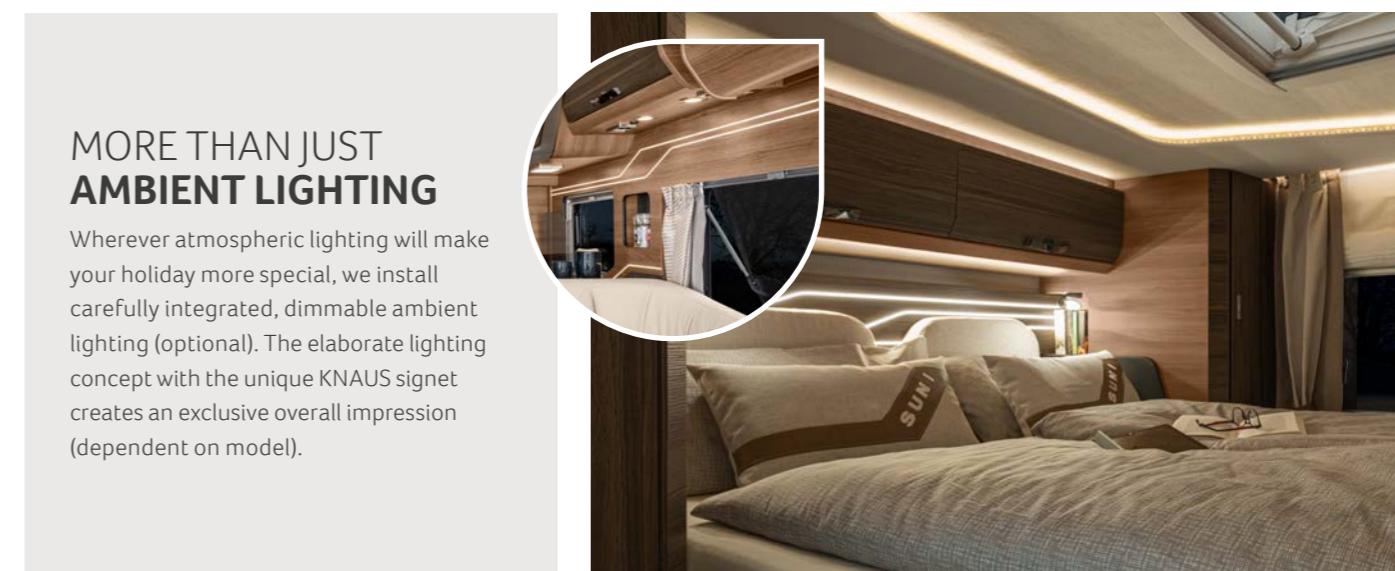

Optimum slatted frame. We install high-quality slatted frames as standard. The distance between the individual slats offers optimum stability and superb ventilation at the same time.

SMART TV. You can now continue to stream your favourite series & films even while on holiday. With the new optional SMART-TVs incl. HD tuner in the living & sleeping area, you have a wide range of options at your disposal.

MORE THAN JUST AMBIENT LIGHTING

Wherever atmospheric lighting will make your holiday more special, we install carefully integrated, dimmable ambient lighting (optional). The elaborate lighting concept with the unique KNAUS signet creates an exclusive overall impression (dependent on model).

PLEASANT SEATING COMFORT

is not an option but part of the standard equipment. Whatever upholstery or fabrics you opt for, you can always rely on one thing: comfortable seats that have been optimised for the respective model are included as standard in all KNAUS motorhomes and camper vans. That is why we include, depending on the model, ergonomic seat cushions that optimally support your back.

Standard fabrics all convince with durable materials and an attractive design that matches the respective furniture decor.

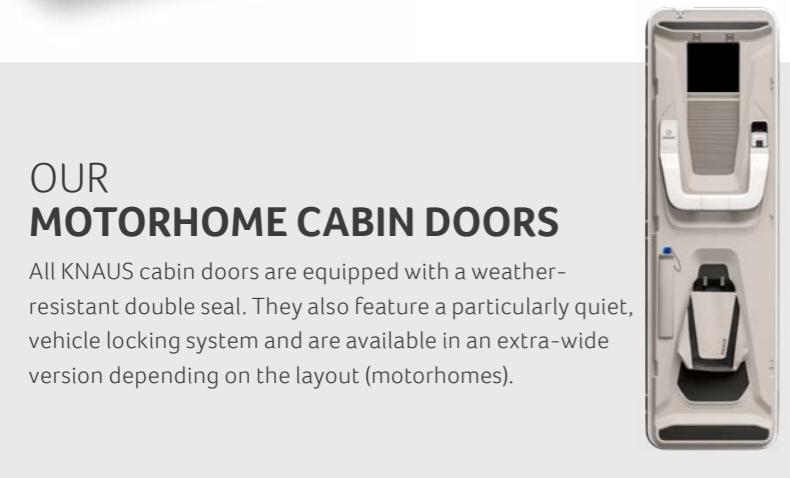

ACTIVE LINE fabrics are extremely easy to clean. Liquids do not seep in immediately and most stains can be removed with a damp cloth.

Enhance your vehicle with a **COZY HOME package** (optional).

Up to 50 % weight saving with significantly more usable capacity: the optional **lithium-ion batteries** are perfect for anyone who is often self-sufficient

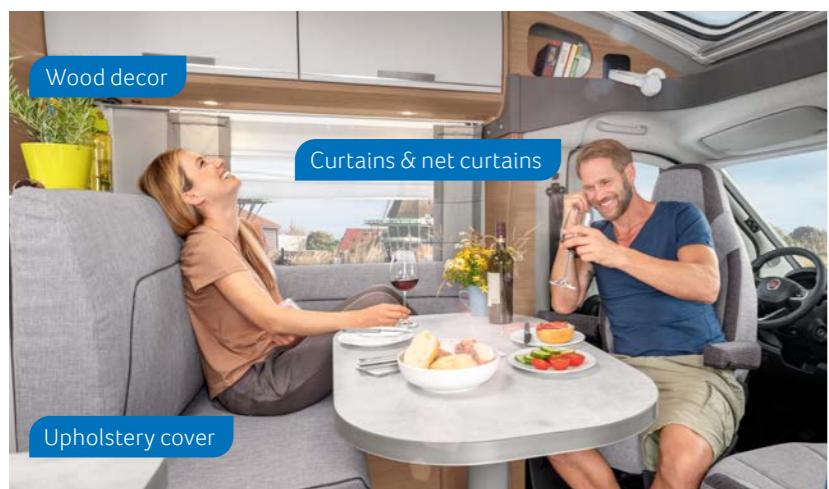

OUR MOTORHOME CABIN DOORS

All KNAUS cabin doors are equipped with a weather-resistant double seal. They also feature a particularly quiet, vehicle locking system and are available in an extra-wide version depending on the layout (motorhomes).

First aid MediKit. Heartburn, headaches, allergies: Things you hardly ever need – especially when you are travelling. To ensure that you are well prepared for the worst case scenario, every KNAUS vehicle is accompanied by a MediKit voucher * with which you can conveniently redeem the practical first-aid kit with our shipping partner * online.

THE CHOICE IS YOURS!

With a choice of fabric styles, you can add your personal touch to the interior of your vehicle. This includes the upholstery covers, as well as the design of both the curtains and net curtains.

HYGIENICALLY PERFECT WATER AT EVERY DESTINATION

The bluuwater water filter removes almost all germs, bacteria and small particles (99.999%) from the pipework in all Knaus Tabbert vehicles (comes as standard). The replaceable filter cartridge with highly efficient ultrafiltration membrane is mounted vertically or horizontally between the water tank and the pipe system. It has a filter capacity of up to 8,000 litres – and, thanks to a Timestrip indicator in the vehicle the remaining usage time can be checked at any time. The bluuwater cartridge needs to be replaced after six months at the latest, depending on use. Thanks to the click-and-ready quick coupling system, it can be replaced easily and drip-proof.

PRACTICAL SERVICEBOX

Connecting, filling, draining: Our ServiceBox can do it all. Here a power supply socket, there a drain tap and the fresh water tank is somewhere else entirely – this is how the supply technology is arranged in many motorhomes, but not in ours. Every KNAUS motorhome is equipped with the practical ServiceBox, which gathers all key functions and connections centrally at a single location. For maximum ease of use.

RIMS & ALL-SEASON TYRES

Our 17" alloy rims with an exclusive KNAUS design give the vehicle a particularly coherent and dynamic overall appearance (optional). They are resistant to salt water, which makes them perfectly suitable for use in winter too.

ARRIVE SAFELY AND IN STYLE

A safe bet: to ensure you can rely one hundred percent on your vehicle, we equip every motorhome and camper van with high-quality materials. Combined with advanced technology, this results in ingenious features for a truly relaxed holiday experience.

CATEYE evolution rear lights. Increased driving safety and distinctive KNAUS night-time signature thanks to the 3D design of the lights, dynamic LED indicators and integrated failure sensors (motorhomes).

We only use **quality products** from renowned suppliers, such as 3M, Avery and Oracal (across all series).

Maximum safety

Modern inner track keys slide particularly easily into the lock but don't get caught in your trouser pocket thanks to their smooth surface (motorhome).

For maximum hail protection, we install a **high-strength GRP roof** with a fibreglass content that is almost three times greater than that of standard GRP (motorhomes).

DURABLE PRO.TEC FRAME

The Pro.Tec frame is a particularly solid aluminium profile strip that connects the side wall, front wall and roof to one another. It improves the stability of the bodywork and therefore also the longevity of the entire vehicle. One particular highlight is that the Pro.Tec frame incorporates a chamber for the sealant. This means that it can no longer bulge out, ensuring a seamless appearance (motorhomes / dependent on model).

HEAD-UP DISPLAY

The integrated head-up display increases your safety. All of the relevant information, such as the directions from the Pioneer navigation system, are projected directly into your field of vision (optional).

NAVIGATION

Specially developed for motorhomes and camper vans in 44 countries: promobil's "Stellplatz-Radar" app for finding campsites, smartphone operation with voice control, and a high-contrast 9" multi-touch display. Compatible with Apple CarPlay, Android Auto and WebLink. Integrated DAB+ receiver, including map updates for 3 years.

Maximum living space with compact exterior dimensions: two issues that are forever at the forefront of our minds when designing our vehicles, but which do not always go together at first glance. But we've found a way: with the revolutionary FoldXpand rear construction, the rear light moulding forms a completely flat surface with the rear wall, creating a sporty and completely new rear end design for the caravanning industry. Depending on the model range, this makes it possible to maximise the space inside without changing the exterior dimensions, or to make the vehicle more compact overall without losing even an inch of space inside (dependent on model).

Velocate GPS tracker^{**}. More safety for your KNAUS vehicle. The GPS tracking system is intuitive to operate using an app and has a silent alarm mode. In the event of theft, Vlocate 2.0 can help you to recover your KNAUS vehicle. Capable of working for up to 3 months without a power supply, it leaves nothing to be desired. The GPS tracker can also be upgraded with Bluetooth sensors. These allow you to check the tank levels and temperature at any time using an app.

SMART CI ALL OF THE TECHNOLOGY AT YOUR FINGERTIPS

*As part of our guarantee conditions valid upon handover of the vehicle, we grant a 10-year leak-proof guarantee on the body manufactured by us in addition to the statutory warranty for leisure vehicles made by KNAUS.

WELCOME TO OUR FULLY-INTEGRATED MOTORHOMES

The most eye-catching motorhomes on the road!

The chassis is completely integrated into the specially designed bodywork, which gives the vehicle a distinctive and elegant appearance. In addition to their design, our fully-integrated motorhomes also boast a number of handy features, such as a lifting bed at the front – there is so much room, even without an overcab section. The perfect choice for campers who prefer the finer things in life and their home comforts, rather than speed.

VAN I

SUN I

L!VE I

3-Axle

L!VE I

2-Axle

PERFECTLY BUILT FROM SCRATCH

FRONT-END HOODS

Unique design for a striking appearance: the front-end hoods of our fully-integrated motorhomes feature a progressive design. The side plates under the passenger and driver windows featuring a chrome highlight and the name of the model range add a stylish touch (optional).

EXCELLENT GRP UNDERBODY

We install a thick, tough GRP layer in order to best protect the underbody against the weather as well as impacts from stones or the like (dependent on model).

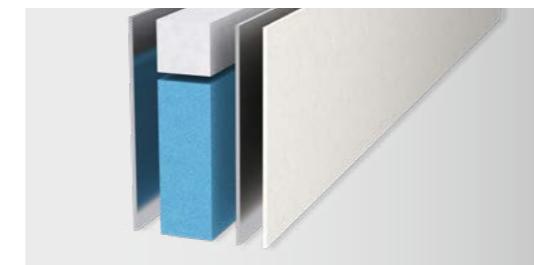

Full-led Headlights

Optimum luminosity and visibility, low energy consumption and enormous durability: The headlights with low beam, high beam and daytime running light in full LED technology are convincing in design as well as on all other levels.

Durable TVT+ structure

The special body technology made of aluminium sheet and premium XPS insulation makes the SUN I extremely durable. In addition, heat is optimally distributed throughout the vehicle and the aluminium inner wall offers you the best protection, even in violent thunderstorms.

HIGH-STRENGTH GRP ROOF

Not all GRP is the same. Resistance depends on how high the glass content is. For maximum protection against hailstorms, we decided on the high-strength variant with a fibreglass content that is almost three times greater than that of standard GRP (Across all series).

EASY ACCESS

The optional, electric step makes it easy for you to get into your fully-integrated motorhome. The unique cab doors include a number of handy features, including a ticket holder and coin tray.

INSULATING GLAZING

The side windows and door in the SUN I are fitted with insulating glass panes as standard for improved sound and thermal insulation.

MORE INFO ONLINE
knaus.com/fully-integrated-structure

Panoramic Windscreens

Our large panoramic windshields allow maximum viewing angles up, down and to the side. This means more active safety for you thanks to an optimum overview (across all model series).

ALKO Tandem Deep frame chassis

The low centre of gravity and the particularly torsion-resistant chassis ensure exceptional driving and comfort features as well as maximum safety when driving.

Travel without worries, arrive safely, relax and enjoy. An excellent motorhome is the combination of innumerable practical and high-quality details. When furnishing our motorhomes, we attach great importance to a high degree of safety and maximum comfort.

Sewer valve camera & electr. drain valve. The SUN I 3 axles can be optionally equipped with a waste water valve camera to simplify the positioning of the vehicle over the drain. The standard electric drain valve can be conveniently operated from the cab (Dependent on model / Optional).

PRACTICAL LONGITUDINAL GAS BOX

For particularly easy access and even faster exchange of the gas bottles, we install a longitudinal gas box. This is suitable for two 11 kg gas bottles placed next to each other (Across all series).

SIMPLY AND SECURELY CLOSED

Multipoint locking but with the convenience of single-handed operation. We aim to provide maximum convenience in the form of doors that can be operated using one hand. The double seal also ensures that heavy driving rain and wind noises do not dampen your holiday experience. Our garage doors and service doors come with convenient central locking so that you don't have to individually lock and unlock every single one. Everything is secured at the press of a button. The optional alarm system provides even more protection.

BLIND SPOT WARNER

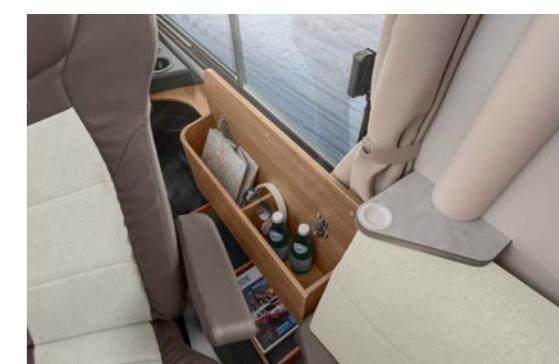

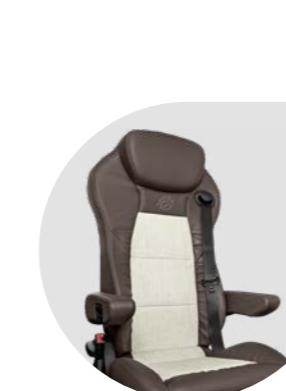

Our Blind Spot Warner helps you keep track of side and rear traffic. The system gives you the necessary all-round view not only while driving but also when maneuvering.

Pure safety! (Dependent on model / Optional)

PRACTICAL DOUBLE FLOOR

Our double floor ensures cosy warmth due to double-layer insulation even in the coldest outside temperatures. Water and heating pipes are installed in such a way that they are protected against frost and damage. Alongside the benefits with regard to insulation, the double floor has a practical advantage too. It also serves as a loading option for bulky objects such as skis or camping furniture, as well as several storage compartments for smaller utensils. A particular highlight: The storage space beneath the bench is easily accessible from both the inside and the outside. (Dependent on model)

INTERIOR VARIANTS

Feel at home on the road. Our interior furnishings have precisely this aim. Depending on your requirements and preferences, you can choose from many different options for bed, bathroom and kitchen. Discover the possible variants here.

MORE INFO ONLINE
knaus.com/suni

WELCOME TO OUR SEMI-INTEGRATED MOTORHOMES

The most popular vehicles für 100% travel pleasure.

Our semi-integrated motorhomes are incredibly spacious inside, yet still very compact and highly manoeuvrable. A family holiday with the kids or a romantic getaway for two, whatever sort of holiday you're looking for, we have the right solution for you thanks to our wide variety of semi-integrated layouts.

PERFECTLY BUILT FROM SCRATCH

FOLDXPAND REAR CONSTRUCTION

Automotive rear design, flush-mounted taillight carrier & maximised living space. To find out what makes the FoldXpand rear construction so unique, [see page 11](#) (dependent on model).

Easily accessible electronics

Perfectly organized! Thanks to the central positioning of the entire vehicle electrical system, as here in the VAN TI in the rear garage, all important elements are easily accessible and clearly arranged. This saves time in case of maintenance (Dependent on model).

Practical insect protection door

The optional insect screen door is perfectly integrated & keeps mosquitoes and flies out safely.

Optimum gas supply

Depending on the model, we install either a special gas cylinder pull-out shelf or a gas locker on the side of the vehicle for two 11-kg gas cylinders. Both gas cylinders can be accommodated side by side in the gas locker on the side of the vehicle, which makes them very easy to change. Combined with the very easy-to-swap gas filter insert, the entire gas system and all gas-operated devices are effectively protected.

MORE INFO ONLINE
knaus.com/semi-integrated-structure

NO VISIBLE SCREW FITTINGS

Whether its fenders, side skirts or tail light mouldings. Wherever it is possible and practical in structural terms, we work to achieve a clean, elegant look with plug-in connections that hold attachments securely (Across all series).

A strong foundation forms the basis for every home. It's the same with our vehicles. That's why we build our motorhomes on durable and powerful chassis. We always keep in mind what is important in the individual series,

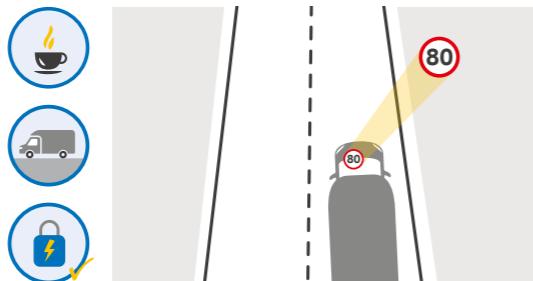

INTELLIGENT ASSISTANCE SYSTEMS

The list of modern driver assistance systems is long. Many of them already come as standard with our vehicles, such as the electronic immobiliser or Hill Start Assist. By adding other optional systems, you can precisely tailor your KNAUS vehicle to your needs.

Maximum driving comfort & safety

The high-quality 2-channel air suspension is standard equipment in all KNAUS motorhomes on MAN TGE base.

LFI ROOF SCOOP

The latest LFI technology (Long Fibre Injection) is used for the roof scoop with integrated insulation. Thanks to the fibre-reinforced polyurethane used here, the components are particularly light and at the same time highly stable and resistant, even in extreme heat and cold. (Dependent on model)

SIMPLY AND SECURELY CLOSED

Multipoint locking but with the convenience of single-handed operation. We aim to provide maximum convenience in the form of doors that can be operated using one hand. The double seal also ensures that heavy driving rain and wind noises do not dampen your holiday experience. Our garage doors and service doors come with convenient central locking so that you don't have to individually lock and unlock every single one. Everything is secured at the press of a button. The optional alarm system provides even more protection.

INTERIOR VARIANTES

Feel at home on the road. Our interior furnishings have precisely this aim. Depending on your requirements and preferences, you can choose from many different options for bed, bathroom and kitchen. Discover the possible variants side by side here.

UNPARALLELED MANOEUVRABILITY

Narrow, winding roads are no problem at all for the highly manoeuvrable VAN TI. Despite its compact exterior dimensions, it offers the largest living area in its class and a wide range of mod cons.

Dimensions shown: Side profile height: 271-282 cm, Side profile width: 599-696 cm, Front width: 220 cm.

Highlights

- + Ultra compact – only 2.20 m in width
- + Vehicle length under 6 m
- + Practical ServiceBox

550 MF & 650 MEG are built on a Fiat chassis.

MAN

640 MEG is built on a MAN chassis.

CONFIGURATOR ONLINE
configurator.knaus.com

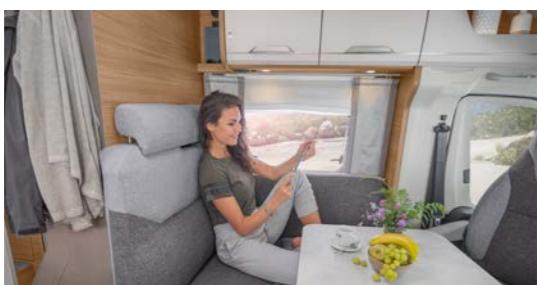

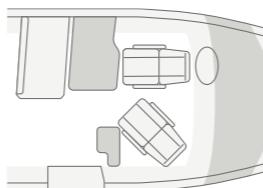

VAN TI 550 MF. The 550 MF impresses with its open lines of sight and can be optionally equipped with the extra comfortable L-shaped seating group including a movable single-column lifting table. This creates additional living space and allows optimum room to move.

L-shaped bench
with side seat

COMPACT OUTSIDE, HUGE INSIDE

The furniture made by master craftsmen, the integrated ambient lighting and the smartly placed storage compartments make the VAN TI so unique.

Comfortable
single seat

VAN TI 650 MEG. For highest seating comfort & a healthy posture, the back cushions are equipped with optimised volume and an ergonomically curved lumbar support

VAN TI 550 MF. In the 550 MF, in addition to the coat hooks and the floor-level wardrobe, there is a clothes rail between the body door and the bed area.

VAN TI 650 MEG. Enjoy a pick-me-up, an afternoon treat or an Irish coffee – after all, coffee makes the world go round. Thanks to the 230V plug socket and capsule holder, there is room in the compartment above the side seat in the VAN TI 650 MEG for a capsule coffee machine or your tea collection.

Spacious
galley kitchen

VAN TI 650 MEG. The extendable work surface, ample storage space and a handy spice rack in the galley kitchen are sure to set hearts racing.

Space-saving
compact kitchen

VAN TI 550 MF. With refrigerator (AES), full-extension drawers and foldable worktop extension, the kitchen is fully equipped despite the most compact vehicle dimensions.

VAN TI 650 MEG. The steps make it easy to get in and out of the single beds. A real plus point, just like the spacious wardrobes with clothes rails and all of the extra storage space under the beds.

VAN TI 550 MF. Despite the most compact exterior dimensions, the interior of the 550 MF features a French bed that is almost 2 metres in length. It blends in perfectly with the layout and gives you the maximum amount of space.

A TEMPLE OF RELAXATION & WELL-BEING

Sweet dreams are guaranteed in the sleeping area with its elaborate lighting concept, while the luxurious bathroom is particularly spacious. Experience total relaxation, wherever you are.

VAN TI 640 MEG. The 640 MEG has a comfortable bench toilet that is particularly easy to clean and offers plenty of space.

VAN TI 550 MF. The washroom is equipped with a bench toilet, storage compartment and practical shower preparation. The separate washstand offers extra storage space and is perfectly integrated into the room.

VAN TI 650 MEG. A clever swing wall in the comfort bath ensures that you quickly have an extra generously sized shower cubicle. A smart magnetic closure simply seals the shower door watertight.

CONFIGURATOR ONLINE
configurator.knaus.com

THE PERFECT SYMBIOSIS OF HOME COMFORTS & DRIVING DYNAMICS

If a smooth ride is just as important to you as your home comforts, then the VAN TI PLUS on a VW Crafter chassis is the perfect travel companion for you. With numerous driver assistance systems and a choice of optional drive concepts, you can tailor it entirely to your individual needs.

VAN TI PLUS 700 LF. In the multifunctional lounge, the height-adjustable pedestal table offers you plenty of legroom and can be used as a handy shelf between the two additional seats.

VAN TI PLUS 700 LF. The cosy L-shaped seating group offers plenty of space for company. An absolute highlight: It can optionally be converted into two additional belt-secured seats in the direction of travel. And if the guests want to stay overnight, a comfortable guest bed for two people is just as easy to create here.

SPACE & TIME TO ENJOY YOUR HOLIDAY

Harmonious interior design to make you feel extra cosy combined with clever solutions to make your holidays unforgettable.

VAN TI PLUS 650 MEG. In this kitchen with a practical 2-burner hob, there is plenty of storage space for kitchen gadgets and supplies in the fully-extending drawers. Thanks to the worktop extension, extra space can be created in no time at all for preparing meals.

VAN TI PLUS 700 LF. Each corner is optimally used here. For example for extra storage space, a particularly deep sink or a high-quality 3-flame cooker with cast iron grate.

VAN TI PLUS 700 LF. The well thought-out room concept creates a modern ambience. The opposite position of the refrigerator allows quick access.

MORE INFO ONLINE
knaus.com/vanti-plus

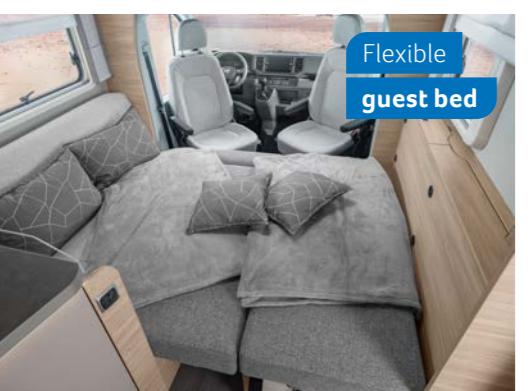

VAN TI PLUS 650 MEG. There is a generous storage space with clothes rails under the more than 2-metre-long single beds. This is very easily accessible thanks to a practical folding mechanism and particularly spacious access.

VAN TI PLUS 650 MEG. A clever swing wall in the comfort bath ensures that you quickly have an extra generously sized shower cubicle. A smart magnetic closure simply seals the shower door watertight.

VAN TI PLUS 650 MEG. The large mirror, premium fittings and an open shelving unit with a dark slate look for all the things you need to keep within easy reach – designed for those who appreciate the finer things in life.

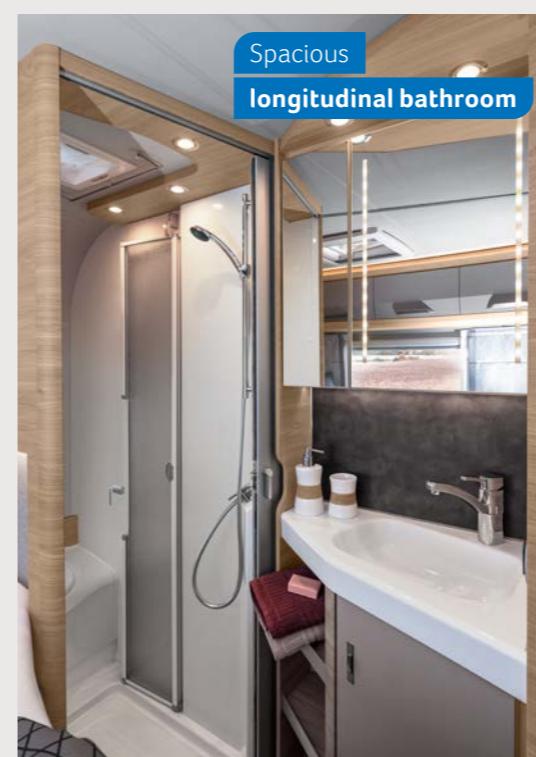

VAN TI PLUS 700 LF. The clever layout creates extra space for a full-length wardrobe. Thanks to several storage compartments and a clothes rail, you can stow everything comfortably here.

TIME FOR RELAXATION

VAN TI PLUS 700 LF. The lounge can easily be converted into a comfortable guest bed. Lower the single-column lift table, insert the cushions and relax.

Sleep in heavenly peace in the cosy beds thanks to the extremely comfortable EvoPore mattress with optional WaterGel topper. The panoramic skylight affords a magnificent view of the night sky, so you can fall asleep with the stars.

VAN TI PLUS 700 LF. Thanks to a separate washbasin perfectly integrated into the living area, the bathroom with toilet and shower cubicle can be used simultaneously. A full mirror cabinet offers plenty of space for all cosmetics.

KNAUS CAMPER VANS

TRUE MASTERPIECES FOR YOUR HOLIDAYS

Daily routine, time off or holidays? Our camper vans can do it all.

Experience everything in a day and be fully refreshed tomorrow. Not possible? Sure it is! With our manoeuvrable and well-equipped camper vans, you can always enjoy five-star comfort with all the benefits of home. Thanks to their well-designed layouts with lots of luggage space and their easy handling, they are also perfect as an everyday vehicle.

BOXDRIVE 600 XL

BOXDRIVE 680

BOXLIFE 600

BOXLIFE 540

BOXSTAR 540

BOXSTAR 600

BOXSTAR 630

BOXSTAR 600 XL

PERFECTLY BUILT FROM SCRATCH

WELL THOUGHT-OUT GAS SUPPLY

The diesel heater included as standard in our BOXDRIVE and BOXLIFE models ensures that gas consumption is kept to a minimum. (2a) A 2.7 kg gas bottle is perfectly sufficient for a reliable gas supply to the gas cooker and can be positioned directly next to the fresh water tank to save on space. (2b) In our BOXSTAR models, the heater is operated the conventional way with gas. We have therefore left enough space for up to two 11 kg gas bottles. The gas bottle locker can be securely locked.

The panoramic window CUV & SpaceRoof

In H2 layouts, the optional panoramic window CUV (bow) ensures a particularly light-flooded living space. For extra room height and particularly convenient access to the driver and passenger seats, the H2 layouts are alternatively available with the optional SpaceRoof roof extension.

Emptying the toilet from outside

The toilet cassette is accessed via the side-wall door making it easy to empty.

ON-ROOF AIR CONDITIONING

In tropical temperatures, our optional air conditioning systems ensure a pleasant cooling of the interior. They also have a heating function and can dehumidify the air in the room.

LARGE ROOF VENTS

Large roof vents in all of our Camper Vans ensure a pleasant living area with plenty of natural light. In our BOXSTAR XL high-roof models, the optional panoramic roof in the high-roof and a hinged window in the rear bring extra light into the interior.

PERFECTLY DESIGNED HIGH-ROOF

The additional GRP roof structure in our BOXSTAR XL high-roof models ensures an incredible interior height of up to 238 cm. The double-shell construction means that the temperature throughout the vehicle is always pleasant, and the aerodynamic shape blends in seamlessly with the overall design. **More information can be found on page 140.**

MORE INFO ONLINE
knaus.com/camper-vans-aufbau

Pop-up roof LFI-Construction

The pop-up roof is manufactured using unique LFI technology as one single part and offers the best insulation values and maximum stability. Its aerodynamic shape improves handling. **See page 110 for more information about the pop-up roof.**

Screen door & Step

We install flyscreen doors in our Camper Vans as standard. The optional step provides you with convenient access. The electric soft-close sliding door is a particular highlight and almost closes on its own.

knaus.com/camper-vans-aufbau

Floor structure
& dinette platform

The base plate, which is perfectly adapted to the body shape, has a sandwich construction. In addition to an added insulation effect, this maximises the interior standing height of our Camper Vans. We also install an intermediate floor in the dinette, and the temperature control will keep your feet nice and warm (dependent on model/ across all series).

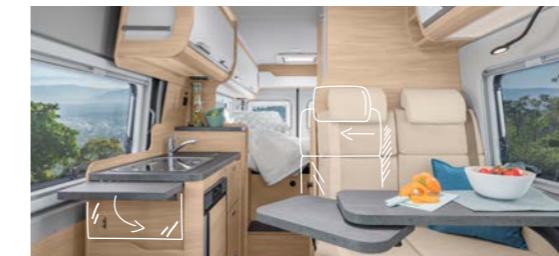

High-quality screens

We use insulating, soft-touch moulded parts in the sleeping and seating areas. They are pleasant to the touch and prevent condensation from forming on the surface.

Maximum variability

The entire interior is jam-packed with multi-purpose solutions, like the floating dinette table for barrier-free access and the seating area featuring adjustable individual seats.

Innovative shower curtain

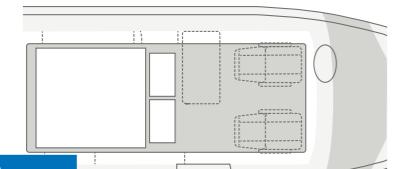

You all know how a wet shower curtain in a Camper Van can cling to your body like a magnet. An integrated air chamber in our compact bathroom, which helps the innovative shower curtain to maintain its shape and keep it away from your body, has put an end to this (optional).

CAMPER VAN WITH POP-UP ROOF

For those who want to reach for the sky. With the unique Camper Van pop-up roof*, you can turn your Camper Van into a two-storey comfort zone in no time at all. The entire roof is manufactured as one single part using the latest LFI technology. This means it offers the best insulation values and maximum stability.

*Optional

Large Pop-up roof bed

A STAR FOR EVERYONE BOXSTAR 600 VARIANTS

Same vehicle length, same vehicle height, same living comfort. But perfectly matched to the different types of travellers and their needs. With the intelligently designed sleeping area variants it is easy to fall in love.

BOXSTAR 600 SOLUTION

The perfect solution for anyone looking for maximum privacy. The BOXSTAR 600 SOLUTION is equipped with the Classic front lifting bed as standard. The Vario front lifting bed (194 x 130 cm) is available as an option.

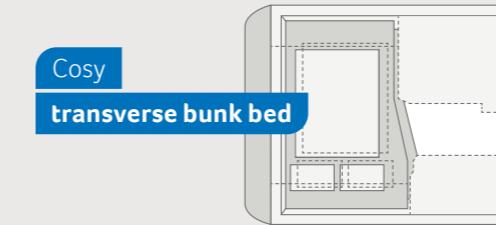

Classic
front lifting bed

The comfortable transverse bed combined with the standard lifting bed at the front creates two separate sleeping areas with super-soft EvoPore mattress in the BOXSTAR SOLUTION.

Cosy
transverse bed

Sleeping comfort for four. The spacious rear bunk bed provides space for the whole family. The upper transverse bed can be easily reached using a stowable ladder.

BOXSTAR 600 FAMILY

Young families love the practical rear bunk bed with four comfortable sleeping places across the width of the vehicle. This way everyone gets their own permanent place to sleep and parents can be sure that their little adventurers will really come to rest. Well thought-out wardrobes provide sufficient storage space.

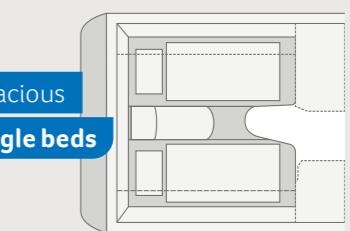

BOXSTAR 600 LIFETIME

Do you like a lot of space for sleeping? Here you can stretch out, spread out and stand up as you please – all without getting in your partner's way. And with a bed length of up to 200 cm there is not only sufficient space for tall people but also for a lot of luggage in the storage space under the beds.

Spacious
single beds

Comfortable access. To get even more comfortably into the land of dreams, a fixed step provides a particularly easy access to the bed.

BOXLIFE

FULFILLS ALL EXPECTATIONS

You are guaranteed to love spending your time here.

The tasteful interior design in the living area combined with plenty of room and the flexible storage space solution at the rear make the BOXLIFE a hero on any trip.

BOXLIFE 600 ME. The floating dinette table offers maximum legroom as well as plenty of extra space for eating, working, planning your trips. What's more, the tabletop can even be extended.

BOXLIFE 600 ME. Swivel TV bracket. Watch TV from the comfort of the dinette or even your bed.

BOXLIFE 630 ME. The large Midi-Heki ensures a bright ambience with plenty of natural light. The shelves and storage units above the driver's cab and dinette provide lots of extra storage space.

Spacious
galley kitchen

BOXLIFE 630 ME. Looking good – always. In the galley kitchen, the large refrigerator is located next to the kitchen uni. Large storage cabinets, a spice rack and the fold-out worktop extension will make the kitchen one of your favourite places to be in no time at all.

BOXLIFE 630 ME. The fully-equipped kitchen has plenty of space for storing items, preparing meals and, of course, fun. Turn even a short break in route into a treat for all the family.

BOXLIFE 630 ME. Fully-extending drawers. Can be pulled out completely, making them particularly easy to access.

BOXLIFE 540 MQ. The compact kitchen makes very efficient use of the space available. The compressor refrigerator is positioned in the lower part of the kitchen unit and can be opened towards both sides thanks to its double hinges.

knaus.com/boxlife

STANDARD EQUIPMENT

Starting with 2 sleeping places. You can raise and lower the double rear lifting bed to your individually selectable sleeping height. The available storage space in the rear is determined by the position of the lifting bed.

Travelling with maximum storage space. The BOXLIFE includes a diesel-powered heating system underneath the bench as standard. A 2.7-litre gas cylinder, which is positioned next to the water tank at the rear to save space, is all you need to ensure a reliable gas supply. This way almost the entire vehicle width can be used as flexible storage space.

The standard rear lifting bed can be used at different heights and adapted to your individual needs with further options.

BOXLIFE 630 ME. Are you taking your e-bikes with you? Then the optionally available electrical outlets are an absolute must-have.

BOXLIFE 600 MQ. Each BOXLIFE is equipped with a rear lifting bed with two-layer cold foam mattresses.

MAXIMUM FLEXIBILITY

Get more out of your camper van by putting more into it: only possible with the BOXLIFE. When you choose a BOXLIFE, you are opting for the highest degree of versatility that a camper van has to offer.

Couch option. The rear slatted frame can easily be folded up. That way, you will receive a couch with a unique view.

Transverse double bed as an option. Two additional sleeping areas and use of storage space up to a bicycle and other luggage.

OPTIONAL FEATURES

Additional bed. The additional bed is attached under the rear lifting bed, it can be removed flexibly, and the divided slatted frame enables an individual use. This creates 4 further variants of use.

Longitudinal double bed as an option.

In layouts with a rear lifting bed the lower additional bed can also be used as a spacious double bed with longitudinal sleeping areas in minimum storage space.

Transverse single bed as an option. One additional sleeping area and use of storage space up to two bicycles and other luggage.

BOXDRIVE

UNIQUE DYNAMICS.

BOXDRIVE 600 XL

SWEET DREAMS IN THE HIGH-ROOF BED

The high-roof body makes the vehicle feel incredibly spacious inside with a comfortable headroom of up to 238 cm. The smooth-operating, high-roof bed can be lowered with just one hand, creating two separate sleeping areas in the process. Perfect for friends or families.

GENEROUS SLEEPING PLACE

The high-roof beds not only boast a great view and comfortable mattresses, but plenty of sleeping space too. In the BOXSTAR STREET XL, you can completely stretch out or cuddle up with your other half in the high-roof bed measuring 207 cm x 130 cm.

Heavenly sleep. Dimmable side windows and fully-fledged cold foam mattresses ensure optimal sleeping comfort.

Gigantic space available. The entire living space gains in height with the high-roof construction. This also improves the sleeping comfort.

Unbeatable views from above. You not only get the best view of the interior from the cosy high-roof bed, but there are also lots of handy shelves and the optional height-adjustable TV is at eye level too.

Unique headroom. Even when the high-roof bed is extended there is still a headroom of more than 170 cm (238 cm when retracted).

SPACE-SAVING AND SMOOTH-RUNNING

The high-roof bed is particularly easy to retract and extend in a single action. A special mechanism ensures that it engages securely. The ladder makes it easy to get in and out of the bed.
